

Development loan registered in Bahrain and Switzerland

Bahrain based Western Gulf Advisory AG is advancing a USD200 million credit facility to Australian owned Landmark Business Developments International Limited following registration of the loan in Bahrain and Switzerland.

Western Gulf Advisory is a Stock Company and has recently attained "AG" status in the world's capital of banking and finance in Switzerland. This achievement is a reflection of the wealth management, financial and legal advisory services it provides to its clients from offices in Bahrain, Hong Kong and Switzerland.

Landmark Business Development is owned by Australians, David Hawkins and Alan Keller. They have more than 30 years experience in real estate development in Australia and Asia including golf and tourism resort developments, student accommodation and sustainable, affordable housing. The credit facility will enable Landmark to immediately start new land and housing projects in NSW and SA, associated with several residential golf resorts and tourism projects near Sydney and in Vanuatu.
